The Pastor's Perspective..... 

Easter: An Ancient Celebration of New Life

People often ask me why the date of Easter moves around so much year to year. Christmas comes around every December 25; why is Easter so hard to pin down? The answer is that Easter occurs on the first Sunday after the first full moon after the spring equinox, which means it can land as early as March 22 or as late as April 25. That's a great piece of liturgical trivia to know, but it also reveals something beautiful about Easter: it's directly connected to the rhythms of the natural world. My friend Susan Palo Cherwien put it this way:

Passover and Pascha [Easter in English] are both related to the word "passage" – a passage from death to life, from winter to spring, from bondage to freedom, from barrenness to newness. This holy day marking the rising of Christ from the grave is the only Christian festival whose date is determined by both the movement of the sun and the movement of the moon, representing those elemental creative energies of day and night, darkness and light.

This year, the Jewish festival of Passover will begin on April 15, the date of the first full moon after the spring equinox, and our celebration of Easter will occur on the following Sunday, April 17. On that day, we will gather to celebrate the mystery at the heart of our faith: Christ's victory over sin and death. It's a day so special we've spent 40 days preparing for it! This year, as we come to Easter, may we be reminded how ancient and sacred this festival day is, and how it connects us to a long history of faithful people.

This year, we'll re-introduce a practice to St. Luke that is also deeply rooted in Christian history: lighting a paschal candle. (Examples below.) This practice traces all the way back to the fifth or sixth century, when Christians began lighting a new wax candle at Easter. The candle is new each year because it is lit with the "new" fire representing the resurrection of Christ, the light of the world. The candle is inscribed with a cross, an *alpha* and *omega* (the first and last letters of the Greek alphabet), and the current year. The candle declares that Christ is present among us now and throughout eternity! As we introduce the candle, we'll say: "Christ, yesterday and today, the beginning and the ending. To Christ belongs all time and all the ages. To Christ belongs glory and dominion, now and forever. Amen."

At Easter, we do not simply recall a one-time event of Christ's death and resurrection. We proclaim that the risen Christ is truly present with us even today. The paschal candle will stand near the altar and be lit every liturgy through the 50 days of Easter, until Pentecost. After that, it is lit for baptisms and funerals, as a reminder of our baptismal connection to Christ's death and resurrection (Romans 6:5-10). I hope this candle will be a powerful reminder for us that the light of Christ can never be extinguished.

Blessings to you as you enter the final days of your Lenten journey, and may the joy of Easter uplift your hearts!

Welcome Spring!

As I was thinking about this month's newsletter article, I came across a quote by Martin Luther..." Our Lord has written the promise of resurrection, not in books alone, but in every leaf in springtime."

This year, spring has more meaning than in years past. Not only are we emerging from the cold and dark winter days, but also we are on the journey of emerging from this pandemic. We still have a way to go, but it feels like we can see the light at the end of this very long tunnel. We are slowly, safely, and surely moving in the right direction with our Worship Services and spending time together as a congregation. I am fortunate to be able to work with our new pastor and the council members, all of whom have many thoughts and ideas that can bring our congregation closer together, not only in person, but also through technology. Recently Pastor Bristol applied for a technology grant through the St. Paul Synod and we are hoping and praying that St. Luke may be a recipient of one of these grants.

The council will continue to monitor the pandemic, but please continue to follow all of the public health recommendations for keeping safe, and trust that God is watching over us.

The gift of Easter is hope and re-birth and it is never more visible than in spring.

Happy Easter,

Nancy Hegdahl

This practice traces all the way back to the fifth or sixth century, when Christians began lighting a new wax candle at Easter. The candle is new each year because it is lit with the "new" fire representing the resurrection of Christ, the light of the world. The candle is inscribed with a cross, an *alpha* and *omega* (the first and last letters of the Greek alphabet), and the current year. The candle declares that Christ is present among us now and throughout eternity! As we introduce the candle, we'll say: "Christ, yesterday and today, the beginning and the ending. To Christ belongs all time and all the ages. To Christ belongs glory and dominion, now and forever. Amen."

At Easter, we do not simply recall a one-time event of Christ's death and resurrection. We proclaim that the risen Christ is truly present with us even today. The paschal candle will stand near the altar and be lit every liturgy through the 50 days of Easter, until Pentecost. After that, it is lit for baptisms and funerals, as a reminder of our baptismal connection to Christ's death and resurrection (Romans 6:5-10). I hope this candle will be a powerful reminder for us that the light of Christ can never be extinguished.

Blessings to you as you enter the final days of your Lenten journey, and may the joy of Easter uplift your hearts!

Welcome Spring!

As I was thinking about this month's newsletter article, I came across a quote by Martin Luther..." Our Lord has written the promise of resurrection, not in books alone, but in every leaf in springtime."

This year, spring has more meaning than in years past. Not only are we emerging from the cold and dark winter days, but also we are on the journey of emerging from this pandemic. We still have a way to go, but it feels like we can see the light at the end of this very long tunnel. We are slowly, safely, and surely moving in the right direction with our Worship Services and spending time together as a congregation. I am fortunate to be able to work with our new pastor and the council members, all of whom have many thoughts and ideas that can bring our congregation closer together, not only in person, but also through technology. Recently Pastor Bristol applied for a technology grant through the St. Paul Synod and we are hoping and praying that St. Luke may be a recipient of one of these grants.

The council will continue to monitor the pandemic, but please continue to follow all of the public health recommendations for keeping safe, and trust that God is watching over us.

The gift of Easter is hope and re-birth and it is never more visible than in spring.

Happy Easter,

Nancy Hegdahl

The Pastor's Perspective..... 

Easter: An Ancient Celebration of New Life

People often ask me why the date of Easter moves around so much year to year. Christmas comes around every December 25; why is Easter so hard to pin down? The answer is that Easter occurs on the first Sunday after the first full moon after the spring equinox, which means it can land as early as March 22 or as late as April 25. That's a great piece of liturgical trivia to know, but it also reveals something beautiful about Easter: it's directly connected to the rhythms of the natural world. My friend Susan Palo Cherwien put it this way:

Passover and Pascha [Easter in English] are both related to the word "passage" – a passage from death to life, from winter to spring, from bondage to freedom, from barrenness to newness. This holy day marking the rising of Christ from the grave is the only Christian festival whose date is determined by both the movement of the sun and the movement of the moon, representing those elemental creative energies of day and night, darkness and light.

This year, the Jewish festival of Passover will begin on April 15, the date of the first full moon after the spring equinox, and our celebration of Easter will occur on the following Sunday, April 17. On that day, we will gather to celebrate the mystery at the heart of our faith: Christ's victory over sin and death. It's a day so special we've spent 40 days preparing for it! This year, as we come to Easter, may we be reminded how ancient and sacred this festival day is, and how it connects us to a long history of faithful people.

This year, we'll re-introduce a practice to St. Luke that is also deeply rooted in Christian history: lighting a paschal candle. (Examples below.) This practice traces all the way back to the fifth or sixth century, when Christians began lighting a new wax candle at Easter. The candle is new each year because it is lit with the "new" fire representing the resurrection of Christ, the light of the world. Welcome Spring!

As I was thinking about this month's newsletter article, I came across a quote by Martin Luther..." Our Lord has written the promise of resurrection, not in books alone, but in every leaf in springtime."

This year, spring has more meaning than in years past. Not only are we emerging from the cold and dark winter days, but also we are on the journey of emerging from this pandemic. We still have a way to go, but it feels like we can see the light at the end of this very long tunnel. We are slowly, safely, and surely moving in the right direction with our Worship Services and spending time together as a congregation. I am fortunate to be able to work with our new pastor and the council members, all of whom have many thoughts and ideas that can bring our congregation closer together, not only in person, but also through technology. Recently Pastor Bristol applied for a technology grant through the St. Paul Synod and we are hoping and praying that St. Luke may be a recipient of one of these grants.

The council will continue to monitor the pandemic, but please continue to follow all of the public health recommendations for keeping safe, and trust that God is watching over us.

The gift of Easter is hope and re-birth and it is never more visible than in spring.

Happy Easter,

Nancy Hegdahl

The Pastor's Perspective..... 

Easter: An Ancient Celebration of New Life

People often ask me why the date of Easter moves around so much year to year. Christmas comes around every December 25; why is Easter so hard to pin down? The answer is that Easter occurs on the first Sunday after the first full moon after the spring equinox, which means it can land as early as March 22 or as late as April 25. That's a great piece of liturgical trivia to know, but it also reveals something beautiful about Easter: it's directly connected to the rhythms of the natural world. My friend Susan Palo Cherwien put it this way:

Passover and Pascha [Easter in English] are both related to the word "passage" – a passage from death to life, from winter to spring, from bondage to freedom, from barrenness to newness. This holy day marking the rising of Christ from the grave is the only Christian festival whose date is determined by both the movement of the sun and the movement of the moon, representing those elemental creative energies of day and night, darkness and light.

This year, the Jewish festival of Passover will begin on April 15, the date of the first full moon after the spring equinox, and our celebration of Easter will occur on the following Sunday, April 17. On that day, we will gather to celebrate the mystery at the heart of our faith: Christ's victory over sin and death. It's a day so special we've spent 40 days preparing for it! This year, as we come to Easter, may we be reminded how ancient and sacred this festival day is, and how it connects us to a long history of faithful people.

This year, we'll re-introduce a practice to St. Luke that is also deeply rooted in Christian history: lighting a paschal candle. (Examples below.) This practice traces all the way back to the fifth or sixth century, when Christians began lighting a new wax candle at Easter. The candle is new each year because it is lit with the "new" fire representing the resurrection of Christ, the light of the world. The candle is inscribed with a cross, an *alpha* and *omega* (the first and last letters of the Greek alphabet), and the current year. The candle declares that Christ is present among us now and throughout eternity! As we introduce the candle, we'll say: "Christ, yesterday and today, the beginning and the ending. To Christ belongs all time and all the ages. To Christ belongs glory and dominion, now and forever. Amen."

At Easter, we do not simply recall a one-time event of Christ's death and resurrection. We proclaim that the risen Christ is truly present with us even today. The paschal candle will stand near the altar and be lit every liturgy through the 50 days of Easter, until Pentecost. After that, it is lit for baptisms and funerals, as a reminder of our baptismal connection to Christ's death and resurrection (Romans 6:5-10). I hope this candle will be a powerful reminder for us that the light of Christ can never be extinguished.

Blessings to you as you enter the final days of your Lenten journey, and may the joy of Easter uplift your hearts!

The Pastor's Perspective..... 

Easter: An Ancient Celebration of New Life

People often ask me why the date of Easter moves around so much year to year. Christmas comes around every December 25; why is Easter so hard to pin down? The answer is that Easter occurs on the first Sunday after the first full moon after the spring equinox, which means it can land as early as March 22 or as late as April 25. That's a great piece of liturgical trivia to know, but it also reveals something beautiful about Easter: it's directly connected to the rhythms of the natural world. My friend Susan Palo Cherwien put it this way:

Passover and Pascha [Easter in English] are both related to the word "passage" – a passage from death to life, from winter to spring, from bondage to freedom, from barrenness to newness. This holy day marking the rising of Christ from the grave is the only Christian festival whose date is determined by both the movement of the sun and the movement of the moon, representing those elemental creative energies of day and night, darkness and light.

This year, the Jewish festival of Passover will begin on April 15, the date of the first full moon after the spring equinox, and our celebration of Easter will occur on the following Sunday, April 17. On that day, we will gather to celebrate the mystery at the heart of our faith: Christ's victory over sin and death. It's a day so special we've spent 40 days preparing for it! This year, as we come to Easter, may we be reminded how ancient and sacred this festival day is, and how it connects us to a long history of faithful people.

This year, we'll re-introduce a practice to St. Luke that is also deeply rooted in Christian history: lighting a paschal candle. (Examples below.) This practice traces all the way back to the fifth or sixth century, when Christians began lighting a new wax candle at Easter. The candle is new each year because it is lit with the "new" fire representing the resurrection of Christ, the light of the world. The candle is inscribed with a cross, an *alpha* and *omega* (the first and last letters of the Greek alphabet), and the current year. The candle declares that Christ is present among us now and throughout eternity! As we introduce the candle, we'll say: "Christ, yesterday and today, the beginning and the ending. To Christ belongs all time and all the ages. To Christ belongs glory and dominion, now and forever. Amen."

At Easter, we do not simply recall a one-time event of Christ's death and resurrection. We proclaim that the risen Christ is truly present with us even today. The paschal candle will stand near the altar and be lit every liturgy through the 50 days of Easter, until Pentecost. After that, it is lit for baptisms and funerals, as a reminder of our baptismal connection to Christ's death and resurrection (Romans 6:5-10). I hope this candle will be a powerful reminder for us that the light of Christ can never be extinguished.

Blessings to you as you enter the final days of your Lenten journey, and may the joy of Easter uplift your hearts!

Welcome Spring!

As I was thinking about this month's newsletter article, I came across a quote by Martin Luther..." Our Lord has written the promise of resurrection, not in books alone, but in every leaf in springtime."

This year, spring has more meaning than in years past. Not only are we emerging from the cold and dark winter days, but also we are on the journey of emerging from this pandemic. We still have a way to go, but it feels like we can see the light at the end of this very long tunnel. We are slowly, safely, and surely moving in the right direction with our Worship Services and spending time together as a congregation. I am fortunate to be able to work with our new pastor and the council members, all of whom have many thoughts and ideas that can bring our congregation closer together, not only in person, but also through technology. Recently Pastor Bristol applied for a technology grant through the St. Paul Synod and we are hoping and praying that St. Luke may be a recipient of one of these grants.

The council will continue to monitor the pandemic, but please continue to follow all of the public health recommendations for keeping safe, and trust that God is watching over us.

People often ask me why the date of Easter moves around so much year to year. Christmas comes around every December 25; why is Easter so hard to pin down? The answer is that Easter occurs on the first Sunday after the first full moon after the spring equinox, which means it can land as early as March 22 or as late as April 25. That's a great piece of liturgical trivia to know, but it also reveals something beautiful about Easter: it's directly connected to the rhythms of the natural world. My friend Susan Palo Cherwien put it this way:

Passover and Pascha [Easter in English] are both related to the word "passage" – a passage from death to life, from winter to spring, from bondage to freedom, from barrenness to newness. This holy day marking the rising of Christ from the grave is the only Christian festival whose date is determined by both the movement of the sun and the movement of the moon, representing those elemental creative energies of day and night, darkness and light.

This year, the Jewish festival of Passover will begin on April 15, the date of the first full moon after the spring equinox, and our celebration of Easter will occur on the following Sunday, April 17. On that day, we will gather to celebrate the mystery at the heart of our faith: Christ's victory over sin and death. It's a day so special we've spent 40 days preparing for it! This year, as we come to Easter, may we be reminded how ancient and sacred this festival day is, and how it connects us to a long history of faithful people.

This year, we'll re-introduce a practice to St. Luke that is also deeply rooted in Christian history: lighting a paschal candle. (Examples below.) This practice traces all the way back to the fifth or sixth century, when Christians began lighting a new wax candle at Easter. The candle is new each year because it is lit with the "new" fire representing the resurrection of Christ, the light of the world. The candle is inscribed with a cross, an *alpha* and *omega* (the first and last letters of the Greek alphabet), and the current year. The candle declares that Christ is present among us now and throughout eternity! As we introduce the candle, we'll say: "Christ, yesterday and today, the beginning and the ending. To Christ belongs all time and all the ages. To Christ belongs glory and dominion, now and forever. Amen."

At Easter, we do not simply recall a one-time event of Christ's death and resurrection. We proclaim that the risen Christ is truly present with us even today. The paschal candle will stand near the altar and be lit every liturgy through the 50 days of Easter, until Pentecost. After that, it is lit for baptisms and funerals, as a reminder of our baptismal connection to Christ's death and resurrection (Romans 6:5-10). I hope this candle will be a powerful reminder for us that the light of Christ can never be extinguished.

Blessings to you as you enter the final days of your Lenten journey, and may the joy of Easter uplift your hearts!

Welcome Spring!

As I was thinking about this month's newsletter article, I came across a quote by Martin Luther..." Our Lord has written the promise of resurrection, not in books alone, but in every leaf in springtime."

This year, spring has more meaning than in years past. Not only are we emerging from the cold and dark winter days, but also we are on the journey of emerging from this pandemic. We still have a way to go, but it feels like we can see the light at the end of this very long tunnel. We are slowly, safely, and surely moving in the right direction with our Worship Services and spending time together as a congregation. I am fortunate to be able to work with our new pastor and the council members, all of whom have many thoughts and ideas that can bring our congregation closer together, not only in person, but also through technology. Recently Pastor Bristol applied for a technology grant through the St. Paul Synod and we are hoping and praying that St. Luke may be a recipient of one of these grants.

The council will continue to monitor the pandemic, but please continue to follow all of the public health recommendations for keeping safe, and trust that God is watching over us.

The gift of Easter is hope and re-birth and it is never more visible than in spring.

Happy Easter,

Nancy Hegdahl

The candle declares that Christ is present among us now and throughout eternity! As we introduce the candle, we'll say: "Christ, yesterday and today, the beginning and the ending. To Christ belongs all time and all the ages. To Christ belongs glory and dominion, now and forever. Amen."

At Easter, we do not simply recall a one-time event of Christ's death and resurrection. We proclaim that the risen Christ is truly present with us even today. The paschal candle will stand near the altar and be lit every liturgy through the 50 days of Easter, until Pentecost. After that, it is lit for baptisms and funerals, as a reminder of our baptismal connection to Christ's death and resurrection (Romans 6:5-10). I hope this candle will be a powerful reminder for us that the light of Christ can never be extinguished.

Blessings to you as you enter the final days of your Lenten journey, and may the joy of Easter uplift your hearts!

Welcome Spring!

As I was thinking about this month's newsletter article, I came across a quote by Martin Luther..." Our Lord has written the promise of resurrection, not in books alone, but in every leaf in springtime."

This year, spring has more meaning than in years past. Not only are we emerging from the cold and dark winter days, but also we are on the journey of emerging from this pandemic. We still have a way to go, but it feels like we can see the light at the end of this very long tunnel. We are slowly, safely, and surely moving in the right direction with our Worship Services and spending time together as a congregation. I am fortunate to be able to work with our new pastor and the council members, all of whom have many thoughts and ideas that can bring our congregation closer together, not only in person, but also through technology. Recently Pastor Bristol applied for a technology grant through the St. Paul Synod and we are hoping and praying that St. Luke may be a recipient of one of these grants.

The council will continue to monitor the pandemic, but please continue to follow all of the public health recommendations for keeping safe, and trust that God is watching over us.

The gift of Easter is hope and re-birth and it is never more visible than in spring.

Happy Easter,

Nancy Hegdahl

The Pastor's Perspective..... 

Easter: An Ancient Celebration of New Life

People often ask me why the date of Easter moves around so much year to year. Christmas comes around every December 25; why is Easter so hard to pin down? The answer is that Easter occurs on the first Sunday after the first full moon after the spring equinox, which means it can land as early as March 22 or as late as April 25. That's a great piece of liturgical trivia to know, but it also reveals something beautiful about Easter: it's directly connected to the rhythms of the natural world. My friend Susan Palo Cherwien put it this way:

Passover and Pascha [Easter in English] are both related to the word "passage" – a passage from death to life, from winter to spring, from bondage to freedom, from barrenness to newness. This holy day marking the rising of Christ from the grave is the only Christian festival whose date is determined by both the movement of the sun and the movement of the moon, representing those elemental creative energies of day and night, darkness and light.

This year, the Jewish festival of Passover will begin on April 15, the date of the first full moon after the spring equinox, and our celebration of Easter will occur on the following Sunday, April 17. On that day, we will gather to celebrate the mystery at the heart of our faith: Christ's victory over sin and death. It's a day so special we've spent 40 days preparing for it! This year, as we come to Easter, may we be reminded how ancient and sacred this festival day is, and how it connects us to a long history of faithful people.

This year, we'll re-introduce a practice to St. Luke that is also deeply rooted in Christian history: lighting a paschal candle. (Examples below.) This practice traces all the way back to the fifth or sixth century, when Christians began lighting a new wax candle at Easter. The candle is new each year because it is lit with the "new" fire representing the resurrection of Christ, the light of the world. The candle is inscribed with a cross, an *alpha* and *omega* (the first and last letters of the Greek alphabet), and the current year. The candle declares that Christ is present among us now and throughout eternity! As we introduce the candle, we'll say: "Christ, yesterday and today, the beginning and the ending. To Christ belongs all time and all the ages. To Christ belongs glory and dominion, now and forever. Amen."

At Easter, we do not simply recall a one-time event of Christ's death and resurrection. We proclaim that the risen Christ is truly present with us even today. Welcome Spring!

As I was thinking about this month's newsletter article, I came across a quote by Martin Luther..." Our Lord has written the promise of resurrection, not in books alone, but in every leaf in springtime."

This year, spring has more meaning than in years past. Not only are we emerging from the cold and dark winter days, but also we are on the journey of emerging from this pandemic. We still have a way to go, but it feels like we can see the light at the end of this very long tunnel. We are slowly, safely, and surely moving in the right direction with our Worship Services and spending time together as a congregation. I am fortunate to be able to work with our new pastor and the council members, all of whom have many thoughts and ideas that can bring our congregation closer together, not only in person, but also through technology. Recently Pastor Bristol applied for a technology grant through the St. Paul Synod and we are hoping and praying that St. Luke may be a recipient of one of these grants.

The council will continue to monitor the pandemic, but please continue to follow all of the public health recommendations for keeping safe, and trust that God is watching over us.

The gift of Easter is hope and re-birth and it is never more visible than in spring.

Happy Easter,

Nancy Hegdahl

The Pastor's Perspective..... 

Easter: An Ancient Celebration of New Life

People often ask me why the date of Easter moves around so much year to year. Christmas comes around every December 25; why is Easter so hard to pin down? The answer is that Easter occurs on the first Sunday after the first full moon after the spring equinox, which means it can land as early as March 22 or as late as April 25. That's a great piece of liturgical trivia to know, but it also reveals something beautiful about Easter: it's directly connected to the rhythms of the natural world. My friend Susan Palo Cherwien put it this way:

Passover and Pascha [Easter in English] are both related to the word "passage" – a passage from death to life, from winter to spring, from bondage to freedom, from barrenness to newness. This holy day marking the rising of Christ from the grave is the only Christian festival whose date is determined by both the movement of the sun and the movement of the moon, representing those elemental creative energies of day and night, darkness and light.

This year, the Jewish festival of Passover will begin on April 15, the date of the first full moon after the spring equinox, and our celebration of Easter will occur on the following Sunday, April 17. On that day, we will gather to celebrate the mystery at the heart of our faith: Christ's victory over sin and death. It's a day so special we've spent 40 days preparing for it! This year, as we come to Easter, may we be reminded how ancient and sacred this festival day is, and how it connects us to a long history of faithful people.

This year, we'll re-introduce a practice to St. Luke that is also deeply rooted in Christian history: lighting a paschal candle. (Examples below.) This practice traces all the way back to the fifth or sixth century, when Christians began lighting a new wax candle at Easter. The candle is new each year because it is lit with the "new" fire representing the resurrection of Christ, the light of the world. The candle is inscribed with a cross, an *alpha* and *omega* (the first and last letters of the Greek alphabet), and the current year. The candle declares that Christ is present among us now and throughout eternity! As we introduce the candle, we'll say: "Christ, yesterday and today, the beginning and the ending. To Christ belongs all time and all the ages. To Christ belongs glory and dominion, now and forever. Amen."

At Easter, we do not simply recall a one-time event of Christ's death and resurrection. We proclaim that the risen Christ is truly present with us even today. The paschal candle will stand near the altar and be lit every liturgy through the 50 days of Easter, until Pentecost. After that, it is lit for baptisms and funerals, as a reminder of our baptismal connection to Christ's death and resurrection (Romans 6:5-10). I hope this candle will be a powerful reminder for us that the light of Christ can never be extinguished.

Blessings to you as you enter the final days of your Lenten journey, and may the joy of Easter uplift your hearts!

The Pastor's Perspective..... 

Easter: An Ancient Celebration of New Life

People often ask me why the date of Easter moves around so much year to year. Christmas comes around every December 25; why is Easter so hard to pin down? The answer is that Easter occurs on the first Sunday after the first full moon after the spring equinox, which means it can land as early as March 22 or as late as April 25. That's a great piece of liturgical trivia to know, but it also reveals something beautiful about Easter: it's directly connected to the rhythms of the natural world. My friend Susan Palo Cherwien put it this way:

Passover and Pascha [Easter in English] are both related to the word "passage" – a passage from death to life, from winter to spring, from bondage to freedom, from barrenness to newness. This holy day marking the rising of Christ from the grave is the only Christian festival whose date is determined by both the movement of the sun and the movement of the moon, representing those elemental creative energies of day and night, darkness and light.

This year, the Jewish festival of Passover will begin on April 15, the date of the first full moon after the spring equinox, and our celebration of Easter will occur on the following Sunday, April 17. On that day, we will gather to celebrate the mystery at the heart of our faith: Christ's victory over sin and death. It's a day so special we've spent 40 days preparing for it! This year, as we come to Easter, may we be reminded how ancient and sacred this festival day is, and how it connects us to a long history of faithful people.

This year, we'll re-introduce a practice to St. Luke that is also deeply rooted in Christian history: lighting a paschal candle. (Examples below.) This practice traces all the way back to the fifth or sixth century, when Christians began lighting a new wax candle at Easter. The candle is new each year because it is lit with the "new" fire representing the resurrection of Christ, the light of the world. The candle is inscribed with a cross, an *alpha* and *omega* (the first and last letters of the Greek alphabet), and the current year. The candle declares that Christ is present among us now and throughout eternity! As we introduce the candle, we'll say: "Christ, yesterday and today, the beginning and the ending. To Christ belongs all time and all the ages. To Christ belongs glory and dominion, now and forever. Amen."

At Easter, we do not simply recall a one-time event of Christ's death and resurrection. We proclaim that the risen Christ is truly present with us even today. The paschal candle will stand near the altar and be lit every liturgy through the 50 days of Easter, until Pentecost. After that, it is lit for baptisms and funerals, as a reminder of our baptismal connection to Christ's death and resurrection (Romans 6:5-10). I hope this candle will be a powerful reminder for us that the light of Christ can never be extinguished.

Blessings to you as you enter the final days of your Lenten journey, and may the joy of Easter uplift your hearts!

Welcome Spring!

As I was thinking about this month's newsletter article, I came across a quote by Martin Luther..." Our Lord has written the promise of resurrection, not in books alone, but in every leaf in springtime."

This year, spring has more meaning than in years past. Not only are we emerging from the cold and dark winter days, but also we are on the journey of emerging from this pandemic. We still have a way to go, but it feels like we can see the light at the end of this very long tunnel. We are slowly, safely, and surely moving in the right direction with our Worship Services and spending time together as a congregation. I am fortunate to be able to work with our new pastor and the council members, all of whom have many thoughts and ideas that can bring our congregation closer together, not only in person, but also through technology. Recently Pastor Bristol applied for a technology grant through the St. Paul Synod and we are hoping and praying that St. Luke may be a recipient of one of these grants.

The council will continue to monitor the pandemic, but please continue to follow all of the public health recommendations for keeping safe, and trust that God is watching over us.

The gift of Easter is hope and re-birth and it is never more visible than in spring.

Happy Easter,

Nancy Hegdahl

My friend Susan Palo Cherwien put it this way:

Passover and Pascha [Easter in English] are both related to the word "passage" – a passage from death to life, from winter to spring, from bondage to freedom, from barrenness to newness. This holy day marking the rising of Christ from the grave is the only Christian festival whose date is determined by both the movement of the sun and the movement of the moon, representing those elemental creative energies of day and night, darkness and light.

This year, the Jewish festival of Passover will begin on April 15, the date of the first full moon after the spring equinox, and our celebration of Easter will occur on the following Sunday, April 17. On that day, we will gather to celebrate the mystery at the heart of our faith: Christ's victory over sin and death. It's a day so special we've spent 40 days preparing for it! This year, as we come to Easter, may we be reminded how ancient and sacred this festival day is, and how it connects us to a long history of faithful people.

This year, we'll re-introduce a practice to St. Luke that is also deeply rooted in Christian history: lighting a paschal candle. (Examples below.) This practice traces all the way back to the fifth or sixth century, when Christians began lighting a new wax candle at Easter. The candle is new each year because it is lit with the "new" fire representing the resurrection of Christ, the light of the world. The candle is inscribed with a cross, an *alpha* and *omega* (the first and last letters of the Greek alphabet), and the current year. The candle declares that Christ is present among us now and throughout eternity! As we introduce the candle, we'll say: "Christ, yesterday and today, the beginning and the ending. To Christ belongs all time and all the ages. To Christ belongs glory and dominion, now and forever. Amen."

At Easter, we do not simply recall a one-time event of Christ's death and resurrection. We proclaim that the risen Christ is truly present with us even today. The paschal candle will stand near the altar and be lit every liturgy through the 50 days of Easter, until Pentecost. After that, it is lit for baptisms and funerals, as a reminder of our baptismal connection to Christ's death and resurrection (Romans 6:5-10). I hope this candle will be a powerful reminder for us that the light of Christ can never be extinguished.

Blessings to you as you enter the final days of your Lenten journey, and may the joy of Easter uplift your hearts!

Welcome Spring!

As I was thinking about this month's newsletter article, I came across a quote by Martin Luther..." Our Lord has written the promise of resurrection, not in books alone, but in every leaf in springtime."

This year, spring has more meaning than in years past. Not only are we emerging from the cold and dark winter days, but also we are on the journey of emerging from this pandemic. We still have a way to go, but it feels like we can see the light at the end of this very long tunnel. We are slowly, safely, and surely moving in the right direction with our Worship Services and spending time together as a congregation. I am fortunate to be able to work with our new pastor and the council members, all of whom have many thoughts and ideas that can bring our congregation closer together, not only in person, but also through technology. Recently Pastor Bristol applied for a technology grant through the St. Paul Synod and we are hoping and praying that St. Luke may be a recipient of one of these grants.

The council will continue to monitor the pandemic, but please continue to follow all of the public health recommendations for keeping safe, and trust that God is watching over us.

The gift of Easter is hope and re-birth and it is never more visible than in spring.

Happy Easter,

Nancy Hegdahl

After that, it is lit for baptisms and funerals, as a reminder of our baptismal connection to Christ's death and resurrection (Romans 6:5-10). I hope this candle will be a powerful reminder for us that the light of Christ can never be extinguished.

Blessings to you as you enter the final days of your Lenten journey, and may the joy of Easter uplift your hearts!

Welcome Spring!

As I was thinking about this month's newsletter article, I came across a quote by Martin Luther..." Our Lord has written the promise of resurrection, not in books alone, but in every leaf in springtime."

This year, spring has more meaning than in years past. Not only are we emerging from the cold and dark winter days, but also we are on the journey of emerging from this pandemic. We still have a way to go, but it feels like we can see the light at the end of this very long tunnel. We are slowly, safely, and surely moving in the right direction with our Worship Services and spending time together as a congregation. I am fortunate to be able to work with our new pastor and the council members, all of whom have many thoughts and ideas that can bring our congregation closer together, not only in person, but also through technology. Recently Pastor Bristol applied for a technology grant through the St. Paul Synod and we are hoping and praying that St. Luke may be a recipient of one of these grants.

The council will continue to monitor the pandemic, but please continue to follow all of the public health recommendations for keeping safe, and trust that God is watching over us.

The gift of Easter is hope and re-birth and it is never more visible than in spring.

Happy Easter,

Nancy Hegdahl

The Pastor's Perspective..... 

Easter: An Ancient Celebration of New Life

People often ask me why the date of Easter moves around so much year to year. Christmas comes around every December 25; why is Easter so hard to pin down? The answer is that Easter occurs on the first Sunday after the first full moon after the spring equinox, which means it can land as early as March 22 or as late as April 25. That's a great piece of liturgical trivia to know, but it also reveals something beautiful about Easter: it's directly connected to the rhythms of the natural world. My friend Susan Palo Cherwien put it this way:

Passover and Pascha [Easter in English] are both related to the word "passage" – a passage from death to life, from winter to spring, from bondage to freedom, from barrenness to newness. This holy day marking the rising of Christ from the grave is the only Christian festival whose date is determined by both the movement of the sun and the movement of the moon, representing those elemental creative energies of day and night, darkness and light.

This year, the Jewish festival of Passover will begin on April 15, the date of the first full moon after the spring equinox, and our celebration of Easter will occur on the following Sunday, April 17. On that day, we will gather to celebrate the mystery at the heart of our faith: Christ's victory over sin and death. It's a day so special we've spent 40 days preparing for it! This year, as we come to Easter, may we be reminded how ancient and sacred this festival day is, and how it connects us to a long history of faithful people.

This year, we'll re-introduce a practice to St. Luke that is also deeply rooted in Christian history: lighting a paschal candle. (Examples below.) This practice traces all the way back to the fifth or sixth century, when Christians began lighting a new wax candle at Easter. The candle is new each year because it is lit with the "new" fire representing the resurrection of Christ, the light of the world. The candle is inscribed with a cross, an *alpha* and *omega* (the first and last letters of the Greek alphabet), and the current year. The candle declares that Christ is present among us now and throughout eternity! As we introduce the candle, we'll say: "Christ, yesterday and today, the beginning and the ending. To Christ belongs all time and all the ages. To Christ belongs glory and dominion, now and forever. Amen."

At Easter, we do not simply recall a one-time event of Christ's death and resurrection. We proclaim that the risen Christ is truly present with us even today. The paschal candle will stand near the altar and be lit every liturgy through the 50 days of Easter, until Pentecost. After that, it is lit for baptisms and funerals, as a reminder of our baptismal connection to Christ's death and resurrection (Romans 6:5-10). I hope this candle will be a powerful reminder for us that the light of Christ can never be extinguished.

Blessings to you as you enter the final days of your Lenten journey, and may the joy of Easter uplift your hearts!
